TELEPHONE NO. 4421 JERUSALEM

P. O. B. 667

IN REPLY PLEASE QUOTE

No. AG/3/64

DEPARTMENT OF AGRICULTURE & FISHERIES,
JERUSALEM, PALESTINE.

24th October, 1939.

Assistant District Commissioner,
Tulkarm.

Subject: Farming Activities - Kadoorie Agricultural
School, Tulkarm.

Reference: Your letter No. 40 dated 13th October, 1939.

There seems to be a misunderstanding between Mr. Ricaby and the Military Authorities regarding certain details. However, I have issued instructions that :-

- (1) No mules or donkey will be placed in the dutch barn. Such animals will not be used; land will be cultivated by tractor and/or hired animals.
- (2) Kerosene will be stored by the local agents of the Shell Company in Tulkarm.
- (3) Mr. Khawam will use a room in his house as an office, as he agreed to do, and arrangements will be made to instal the farm telephone in his house for official use.

2. I am advised that in the past certain difficulties arose with regard to the use of the supply of water for military purposes and irrigation, and therefore I have restricted the irrigation area to that which can be irrigated by the use of one cubic meter of water per day for raising vegetable seedlings for distribution by the Agricultural Service.

3. The offer of the Commanding Officer to do everything possible to facilitate the smooth running of the proposed work on the School Farm is much appreciated. Please convey an expression of my thanks to the Commanding Officer.

AB.

J. H. Smith
ACTING DIRECTOR OF AGRICULTURE
AND FISHERIES

11th October, 1939.

AG/3/84

Subject:- Resumption of Farming Activities,
K.A. School, Tulkarm.

Chief Secretary.

I have been in communication with the District Commissioner, Samaria District, regarding the resumption of farming activities at the Kadoorie Agricultural School, Tulkarm, in view of the necessity to bring under cultivation all available land so as to increase the local production of food stuffs and as a result, as the Samaria Local Security Committee agrees in principle, it is proposed:-

- (a) to set aside a suitable area for the production of vegetable seedlings for distribution to farmers and others. Such area will be restricted to that which can be cultivated by an allowance of one cubic meter of water daily to be made available by the Military Authorities;
- (b) to cultivate the chief dry farm lands by tractor and hired animals and to sow improved selected seed for distribution to farmers;
- (c) to lease the remaining land situated to the West of the Railway Line and of approximately 200 dunums in area to local fellasheen.

2. Funds are available for the purposes set out under (a) and (b) but ^{are} not available for farming the lands under (c).

3. Authority is sought, therefore, to lease for one year the area of about 200 dunums to fellasheen in consultation with the Acting Director of Lands and Surveys and the District Commissioner, Samaria District, at the best possible rental.

Director of Agric. & Fisheries
Jerusalem.

Subject:- Farming Activities - K.A.S. Tulkarm

The letter No. AI/355 sent to you by Mr. Ricaby is not entirely accurate. Para 2 of that letter is incorrect. The C.O. does not agree to the Mules and Donkey spending the night in the Barn. Both he and I however agree that provided the animals are securely locked up they may be kept in the town.

2. Para 5. I am not quite sure which is the power house, but if it is one of the buildings which form the Illumination Centre the C.O. does not agree that Kerosene can be kept there, as elaborate precautions against fire will have to be taken. I am asking Mr. Khawam to try and make an arrangement with the local garage to store it there where it will be perfectly safe.

3. Para 6. There are no objections on security grounds for using the Dairy as an office but I do not think it is a good place to keep Kerosene.

4. Para 8. The only use to which the K.A.S. pump and water supply is put is to fill the bath. Provided this is not interfered with there is no objection to the use of the pump and water for irrigation purposes. The one cubic meter abuded to is neither here nor there and can certainly be taken out of the bath whenever required.

5. The C.O. asks me to add that he will do everything possible to facilitate the smooth running not only of these arrangements but of all work on the farm.

A.1/355
Acting Director of Agriculture
and Fisheries.

Subject :- Farming Activities - K.A.S.
Tulkarm.

letter from

In accordance with para 2 of A.D.C. Samaria, No.C/93 of 23.9.39 and your instructions thereof, I proceeded to Tulkarm on 30.9.39 and met the A.D.C. i/c Tulkarm sub-district who got into touch with the Officer Commanding, 2nd. Btn. The Queen's Regiment, Tulkarm.

The following are the results arrived at :-

✓ (1) Actually the implements and machines are kept in the Dutch barn and the Officer Commanding has no objection to the tractor being brought into the barn for the night.

No (2) The Officer Commanding agrees to keep the three mules and donkey for the night in the barn but does not allow anybody to remain in the barn to look after these animals.

As an alternative, the Station Master was approached by the A.D.C. with a view of finding accommodation for the mules in the Station which is guarded by the Police but the available accommodation (an old H.R. Wagon) was required by the Line Superintendent for storage.

✓ (3) No permission will be given to utilise the farm office and the food mixing and storage room.

✓ (4) Tools may be taken from the stores once a day under escort.

No Kerosene (5) No kerosene to be kept in the Dutch barn, but the A.D.C. suggests temporary storage in the power house, but the Mechanic who keeps the keys of the power house is working entirely for the Military and consequently the keys may not be available when wanted. Some other means of storage will have to be found for the kerosene and the feeding stuffs for the mules and donkey.

office (6) It is thought as an alternative to use the dairy buildings for storage of kerosene and feeding stuffs; one of the rooms may be turned to an office. Mr. Khawam however, thinks this place must be protected at night, but the Officer Commanding cannot undertake to guard the Dairy Buildings.

I may say here that the Dairy Buildings had been broken into and consequently was vacated and abandoned in February, 1939, vide A.D.C.'s letter to Mr. Khawam No.501 of 20.2.39.

✓ (7) The Officer Commanding has no objection to whatever farming operation takes place outside the barbed wire enclosures of the School building and that of the Detention Centre (Farm Buildings).

What irrigation (8) The A.D.C. informed me that the Adjutant agrees to give the farm about one cubic meter of water daily for the nurseries and all the water in the swimming pool once every ten days when the pool should be emptied with the least possible delay for cleaning.

It is obvious that this water cannot be conveniently utilised for irrigation due to technical disadvantages, and we can only confine our work to the one cubic meter only.

A. M. Khawam
Principal, K.A.S. Tulkarm.

13

14 Inf Bde No. 5022.

O.C., 2 Queen's, TULKARM.

The Director of Agriculture and Fisheries has addressed a letter to A/D.O., SAMARIA, asking whether, with a view to producing more food for PALESTINE, it might be possible to resume farming activities at the KADOORIE Agricultural School, TULKARM.

The Local Security Committee decided that there was no objection provided you were previously consulted by the Director of Agriculture and Fisheries and gave your assent to his detailed proposals.

The Director has been informed accordingly. Please report in due course what arrangements have been made.

Subject:-Farming Activities - Kadoorie Agric.
School, Tulkarm

Reference:-Your G/93 of 23.9.39.

There is no objection to the Kadoorie School resuming activities for farming lands which lie outside the perimeter.

2. There is also no objection to their occupying the Dairy and the building near the pump.

3. The other farm buildings cannot be re-occupied as they are used as an examination Centre by the 2nd Queens. I have, however, arranged some time ago that the farm labourers can continue to use, as hereto/er, one of the Examination Centre buildings as a store for the tractor and plough and that the labourers will be admitted to and from the Examination Centre for the purpose of removing and returning the tractor and plough.

Asst. District Commissioner,
Samaris,
Nablus.

Referring to our conversation in this office the other day, I propose visiting Nablus and Tulkarm on Saturday 29th April or on Monday 1st May, whichever date is more convenient to you and the Brigadier.

2. I propose bringing with me Mr. A. Ricaby, Acting Principal, Kadoorie Agricultural School, Tulkarm, and travelling to Nablus with the daily military convoy from Jerusalem. On arrival at Nablus I should, if possible, like to visit the Horticultural Station, near Askar, afterwards proceeding to Tulkarm to visit the Agricultural School and inspect the farm lands and buildings. I then propose to return to Jerusalem via the Nathanya road, Petah Tiqvah, Jaffa, etc..

3. I should be most grateful if you would arrange for any escorts which you consider necessary in connection with my movements after arrival in Nablus.

4. Kindly let me know which of the above mentioned dates would be most convenient to you and I will make arrangements accordingly.

AGS/3/62

SECRET

14th October, 1938.

District Commissioner,
Haifa and Samaria,
Haifa.

Subject: Closing down of District
Services.

I have to inform you that on instructions received from the Chief Secretary in his secret letter No. FS/854³⁸ dated 8th instant, I am taking immediate steps to evacuate and close down the following agricultural activities in the District under your charge:-

Kadoorie Agricultural School, Tulkarm.

2. The school buildings have already been handed over to the military authorities. Instructions have been issued to the Acting Principal to evacuate the livestock and staff of the school farm. As the evacuation of the Mechanic will mean that the military forces at the School will be left without water and an emergency light supply, I have communicated with the military authorities with a view to his being retained if so desired, in which case he will have to be given the necessary protection. If the military forces do not require to maintain these services or are able to make their own arrangements then the Mechanic will have to be withdrawn as well. I have not yet received a decision on this point from Force Headquarters.

Agricultural Inspectors' Offices.

3. The following offices will be closed and the staff withdrawn:-

Jenin	Nablus	Tulkarm.
-------	--------	----------

District and Sub-district Veterinary Offices.

4. As the Veterinary Officer at Nablus renders important service to the Police it has been decided that he shall not be moved unless the town is evacuated by security forces.

The Stock Inspectors' offices at Jenin, Tulkarm and Selfit are to be closed as will also the Poultry and Bee Instructor's office at Nablus.

It is considered that the Sub-district Veterinary Office at Nathanya may be left in being as it is in a Jewish area.

Horticultural Instructor's Office.

5. The Horticultural Instructor's office at Nablus will be closed.

Horticultural and Poultry Stations.

6. The following stations will be evacuated and closed:-

<u>Horticultural</u>	<u>Poultry</u>
Nablus	Nablus Jenin.

The Olive Nursery at Nablus is to be allowed to continue but should be abandoned without hesitation if there is the least indication of its attracting hostile attention.

2

Animal Quarantine Station.

7. The animal quarantine station at Jisr Damiya is to be closed.

Fruit Inspection.

8. Fruit inspection is normally conducted at the following railway stations:-

Hedera, Benyamina, Zikhron Yaacov, Qalqilya, and Tulkarm.

It has been recommended that all such inspection shall be done at the Haifa Port, even if some loss of efficiency is entailed thereby. This is still under consideration and I am consulting with the Chief Horticultural Officer and the Chief Fruit Inspector as to the practicability of this proposal.

9. I should be most grateful for any assistance or advice you can give to the officers detailed to carry out these evacuations in your district, particularly as regards protection during the actual evacuation of Government stores and moveable property which will be withdrawn to a safe place.

(Sgd.) F.R. Mason

ACTING DIRECTOR OF AGRICULTURE
AND FISHERIES
